

# PURCHASING A CHROMEBOOK

You need to make sure you are asking for a Chromebook.

It is not necessary to purchase one of the more expensive models however we do recommend that it has at least 4GB RAM and 32GB storage. However 16GB is sufficient.

We also encourage the purchasing of a protective case and headphones

Brands we have used at school reliably include Acer and HP.

Stores that **Chromebooks** can be purchased through include:

- PB Tech - online through [www.pbtech.co.nz](http://www.pbtech.co.nz) BYOD store. This has educational pricing.
- Heathcote Appliances
- Noel Leeming
