

Pet Care

Dogs are the best! Cats rule! Bearded Dragons are just so cute!

Whatever the animal you have, pets bring many years of joy and pet care can help teach children kindness and patience.

- ⇒ What are your animals needs to survive? ([Pet Care Basics](#)) If you do not have an animal or pet, research for an animal/pet that you would like to have.
- ⇒ Share important facts about your animal and how your care for them.
- ⇒ Research [Animal Care](#) to further inform yourself about your pet. Share five new interesting facts.
- ⇒ How much does your pet eat each week. Go to an online supermarket and research how much it costs to feed your pet for a month.

- ⇒ Use the attached [PDF](#) or use your own imaginative way to write a diary entry for your pet. This is a piece of writing from the point of view of your cat, dog, rabbit, guinea pig or farm animal. If you don't have a pet imagine one of your teddy bears is your pet. What would they tell you?

- ⇒ Design a new lead, piece of clothing or house for your pet. Be sure to label your design.
- ⇒ Teach your pet a new trick.

- ⇒ Take photos of you and your pet to show how you care for them (or if you don't have an animal/pet, draw and create you and your animal/pet that you would like).
